

Stainless Steel Pipe Work

- 20+ years of experience delivering stainless steel pipe work projects in Trubore metric, hygienic dairy & schedule pipe.
- Full survey and design service.
- On-site pipework fabrication & installation working from fully equipped company vans.
- Off-site fabrication in our bespoke workshop to minimise site downtime.
- Custom pipe work formed from sheet metal to create lobster backs and off-set pieces to get around restricted areas.
- Stud welding for earthing points.
- Electro-polishing which is 8 x more effective than passivation for enhancing corrosion resistance.
- Structural steel work expertise to design and supply support steel work and bracketing.
